Dr. Jayne is an Alaskan legend. He performed over 100,000 vaccinations and 30,000 spay/neuters in rural Alaska in a decade of service. Dr Jayne is visiting Alaska again, and will be in your community during the dates posed on the reverse.

He is endorsing Representative Alan Dick because Rep. Dick is fighting to bring choice to quality veterinary care. The actions by the Alaska Veterinarian Board and veterinary community have been unconscionable

Come meet/greet our local hero. Chat with him about the issues. Learn how we can get freedom from the restrictions imposed by “regulatory capture.”

Rep. Alan Dick has done more for his current House District in two years than his opponent has accomplished in the past ten. He will join Dr. Jayne in the scheduled meet/greet in your community.

Many voters in the Goldstream/Ester to Cantwell area are discouraged because present representation is not effective or aggressive. Be discouraged no more! Join other community members to inform this candidate of your issues and ask questions.

The Nation is in a precarious position. Alaska faces issues external and internal. Articulate, aggressive leadership is critical.

Paid for by the Committee to Elect Alan Dick P.O. Box 73412 Fairbanks 99707

In all my efforts, the *only* state official who has listened to me has been

Representative Alan Dick.

Representative Alan Dick not only listened to me, he actually thanked me for my years of service to rural Alaska.

Non-profit veterinary work is essential in every state. It is not charity, but rather a “giving back” by dedicated, highly-qualified and ethical veterinarians... the way veterinary medicine should be.

It is time for the public’s needs to come first.

I invite you to support him in the Nov. 6 election.
